The Highest in Quality The Lowest in Price

ZOMAKYNE WILL NOT DEPRESS THE HEART

ZOMAKYNE AT 25c. AN OUNCE

Is superior to any analgesic and antipyretic at $1.00 an ounce. It relieves pain and reduces temperature promptly, without depressing the heart. It is a specific for influenza, headache, dysmenorrhœa and all cases where a pain reliever is required.

How Can It Be Sold So Cheap?

Simply by putting the cost into the remedy itself, instead of expensive advertising schemes, traveling salesmen and enormous quantities of samples, all of which necessarily increase the price.

A TRIAL FREE if Unsatisfactory

Send $1.00 for a 4-ounce box (powder or tablets), use it all up, then if not well pleased, return the empty box and the money will be refunded. Literature free.

TESTIMONIALS

DR. W. J. ROWE, Buford, Ga.—I have been using your preparations, and especially Zomakyne and Anazyme Uterine Tablets for some time, and find them to be most excellent preparations. In fact, Zomakyne has given me better satisfaction than any of the coal tar preparations, and I have thoroughly tested them all. I am rejoicing in the fact that at last we have a coal tar product that is thoroughly reliable, free from any objectionable feature, and at a reasonable price. I have been using almost a box a week in my practice.

DR. JOSEPH B. LEONARD, Mesa, Ariz.—I like Zomakyne very much indeed. I consider it equal to Antikamnia, and shall continue to use it. I also like the Anazyme Uterine Tablets very much. I tried sample on a very bad case of leucorrhœa, of more than usual obstinacy, with such satisfaction that I desire to use them more.

DR. CHARLES W. SHAVER, Florence, N. Y.—Your Zomakyne is the remedy par excellence as an antipyretic, and for nervous headaches of women it is unexcelled. For vaginal leucorrhœa your Anazyme Uterine Tablets are as far ahead of any astringent wash that can be made, as daylight is ahead of darkness.

DR. W. H. THOMAS, Steeles Tavern, Va.—Zomakyne has acted well for me. I report one case in which results were admirable: Mrs. M., mother of six children, was confined; after-pains in all previous labors had been of the most painful nature, lasting from five to six days. Opium or its alkaloids failing to relieve them, besides having most disagreeable effects in other ways. I dreaded her confinement, knowing what a time I had always had before; but with Zomakyne the pains were almost entirely relieved, and with no bad effects in any way, which was highly gratifying to my patient and myself.

THE MALTBIE CHEMICAL

4 OUNCES $1.00

FREE to physicians who have never used Zomakyne. Send $1.00 for a four-ounce box of Zomakyne, and we will send, FREE, two dozen Anazyme Uterine Tablets. Equal in number to a dollar box of "Uterine Wafers," but superior in QUALITY.

SEE TWO FOLLOWING PAGES.

A Liberal Offer

WE WANT DOCTORS to know all about ANAZYME and ZOMAKYNE. We want doctors to know that there are no better remedies at four or five times our price; that there are none as good at the same or a lower price. If you have never used ANAZYME or ZOMAKYNE, we hope you will accept one of the offers at the bottom of the next pages, or the offer below, to send one or both remedies on approval; you are the judge and will decide if they are worth what we ask for them. If not satisfactory, the remedies cost you nothing more than the postage on the empty boxes.

You will admit that our offer is fair. Will you accept it?

$4.00 for $1.00 Has a Winning Sound

4 OUNCES $1.00

ANAZYME
UTERINE TABLETS

The quickest, safest, cheapest, easiest and best treatment for diseases of women.

Leucorrhœa, vaginitis and pruritis, diseases so frequently met with in the practice of every physician and so hard to cure, are speedily relieved.

The price is also attractive. $1.00 buys a four-ounce box (120 tablets) five times the size of a dollar box of the ordinary "wafers."

An Ideal Combination

Zomakyne for the relief of pain, and Anazyme Uterine Tablets for the cure of the disease, form an ideal combination. Try it.

ZOMAKYNE WILL RELIEVE PAIN AND REDUCE FEVER.

TESTIMONIALS

DR. W. N. NEWBERN, Braden, Tenn.—In the two cases in which I used the Anazyme Uterine Tablets, results were entirely satisfactory. I have two new cases on hand now, and ordered from Memphis, but could not find them. Please send me a box by return mail.

DR. E. G. NEEL, Enfield, Ill.—I used the Anazyme Uterine Tablets you sent with great success. The patient complained of excessive ovarian pains, menses irregular and of offensive odor. I put her upon tonic treatment and ordered an Anazyme Uterine Tablet each night at bed time to be pushed against the mouth of the uterus and remain until the next night, then flush out with warm water, using a tablet each night for three nights, then skip three nights. From the beginning improvement was constant, until complete recovery in a few weeks.

DR. T. T. MARSHALL, Beard, Ky.—I have used your Anazyme Uterine Tablets, and am very much pleased with results. Used them in a case of leucorrhœa and was surprised at the rapid cure.

DR. GEORGE H. BROWN, Chanute Kan.—Anazyme Uterine Tablets are giving me and my lady patients more satisfaction than any similar remedy I have ever used.

DR. C. I. CAIN, Rome, Ga.—I find your Anazyme Uterine Tablets the best and most convenient of any I have ever used; give perfect satisfaction to my patients, and I do not think I can do without them any more.

DR. C. B. PHILLIPS, Cuero, Texas.—Anazyme Uterine Tablets fulfill a long desired want in the treatment of female diseases. I must also state that Zomakyne is the best and safest of all the coal tar derivatives.

COMPANY, BUFFALO, N. Y.

FREE to physicians who have never used Anazyme Uterine Tablets. Send $1.00 for a four-ounce box of Anazyme Uterine Tablets, and we will send, FREE, one ounce of Zomakyne, which is alone worth $1.00.

MISCELLANEOUS DEPARTMENT

The pages of this department are for you. Use them. Ask questions, answer questions and aid us in every way you can to fill it with helpfulness. Let all feel "at home." Make your reports brief, but do not sacrifice clearness to brevity. Say all that it is necessary to say to make your meaning plain and convey your ideas to others. We especially urge you to use the space set aside for "Condensed Queries" freely, and avoid burdening your Editors with private correspondence.

ACNE AND ITS TREATMENT.

Editor Alkaloidal Clinic: --There are few diseases, if any, that the medical profession has attributed to more different causes than acne. A careful study of this affection has convinced the writer that it is far from being the result of one cause. And it is not unlikely that the lack of success attending the treatment is the result of following one of the many theories of cause to the exclusion of all others.

That some derangement of the alimentary canal is the most prolific source there is no question. The blood, liver and ovaries are also important factors in producing acne. Or, it may be of purely nervous origin; and this last should not be overlooked, especially in the more persistent cases.

The first thing in the treatment is to consider the cause and remove it if possible. This in the majority of cases is not as difficult a task as we are led to believe. Take the clinical history, make a careful examination (taking into consideration the age and sex) with all the causes well in mind, and error in diagnosis is not likely to occur.

Without attempting to give all the treatment we have found effective I will hint at some things for the guidance of the general practitioner. Where the ovaries are at fault the internal administration of ergot will be found a potent remedy. If the liver is at fault give calomel and soda; if the blood, arsenic and iron; if the alimentary canal, where and how must first be ascertained and proper remedies applied.

Acne Tablets will be found applicable to a great majority of these cases. These admirable tablets are prepared especially as an internal treatment for acne when due to any derangement of the alimentary canal. The formula is: Extract phytolacca; extract stillingia; extract nux vomica; extract elder flowers; extract cascara sagrada. This will convince every thoughtful physician of their ability to aid digestion and to increase the peristaltic action, thereby overcoming constipation, assisting in assimilation and furnishing pure rich blood to the skin. The diet and hygiene, personal and domestic, should be regulated.

The face should be washed with cold water and pure Castile soap, and some healing ointment applied. Acneine will be found an excellent local remedy for all cases. It is a smooth, white ointment composed of sambucus (elder) as a base, combined with zinc oxide, olive oil and lanolin, with the proper menstruum. It seems to act through the sebaceous glands, making it especially applicable to the skin of the face. Not only is it useful in acne but in all inflammatory diseases of the skin, and it can be used indefinitely without increasing the growth of hair or producing any other disfigurement of the facial erma.

W. L. CAPELL, M. D.

Omaha, Neb.

—:o:—

A Chicago doctor attributes *all* cases of acne to masturbation—ED.

A FEW COMMON ERRORS IN DIFFERENTIAL DIAGNOSIS.

Editor Alkaloidal Clinic:—One of the most frequent errors with practitioners of the South is a failure to make the differential diagnosis of typhoid fever.

The microscope not being available to the general practitioner time is often our greatest aid in diagnosis.

Remittent and masked typhoid fevers have so many symptoms in common that the conservative physician will not commit himself fully to a diagnosis for ten or twelve days. In the meantime he will cinchonize his patient during the first three or four days in order to neutralize malarial poison, and will watch the temperature and see whether it corresponds with remittent or typhoid fever.

In typhoid fever the patient is apt to have a dull headache in the occipital region, languid feelings, and the nervous system profoundly disturbed, as manifested by bad dreams.

In malarial fever the patient is more apt to have severe frontal headache, with backache and characteristic "aching of the bones," and the fever terminates in eight or ten days.

In the atypical forms of typhoid fever the patient is very apt to have epistaxis during the first week and will frequently explain the nosebleed as accidental and caused by picking it. The tip and edges of the tongue are red and glazed. There is generally desquamation of the epithelial layer of mucous membrane on tip and edges of tongue during the first week, leaving it intact with a foul coat in center.

Frequently, however, the symptoms are so obscure that time has to make the differential diagnosis for us. The most important thing for us to understand is our inability to verify the diagnosis. For by heroic treatment during the first week of typhoid fever with large doses of calomel the patient is terribly reduced in strength and the intestinal irritation increased. And large doses of quinine after the patient has been cinchonized will only disturb his stomach and deprive him of nourishment, which is the sheet anchor in the treatment of enteric fever; besides quinine in large doses sustained for any length of time preys terribly on the nervous forces.

Whilst no such disease is recognized by standard authors as typho-malaria, in the nomenclature of fevers, we find throughout this country many physicians who yet give these patients malarial treatment.

The latest authorities caution us against the free use of antipyretics of the phenol group in these fevers, as they feel sure they predispose to hemorrhages of the bowels and are otherwise objectionable as depressants in these slow fevers.

The vaso-motor nervous system is very much disturbed, as manifested by frequent hemorrhages from bowels and nose and by active general capillary congestions, as occasionally we see a typhoid patient go into capillary congestion from paralysis of the vaso-motor nerves from an overcharge of typhoid toxins. Antipyrin and Antifebrin have a powerful effect on the vaso-motor nervous system, as manifested by the general cyanosis which follows the exhibition. And we have on record two typhoid patients who absolutely bled to death just as they were coming from under full doses of these drugs.

I will close this paper by stating that another common error in practice is a failure to make the differential diagnosis of diphtheria, as some physicians in this country are treating it as putrid sore throat, capillary bronchitis, catarrhal fever, etc. Membranous croup and diphtheria are one and the same disease. It is infectious and should be treated as diphtheria, the patient isolated and surrounded by the same sanitary precautions.

DR. HARRY T. FRY.
Wills Point, Texas.

ARTIFICIAL LEGS AND ARMS.

MARKS' PATENTS of 1854, 1863, 1865, 1880, 1886, 1887, 1892, 1893, 1895, cover all the accredited improvements in artificial legs and arms, and make the Marks' Artificial Limbs peerless. Rubber feet remove jar and make the stump-bearings easy. Rubber hands extend the limits of accommodation.

Light, Durable, Practical. Do not get out of order, and inexpensive to wear. Appreciated by over twenty thousand wearers and thousands of surgeons of prominence.

The Limits of the utility of Marks' Artificial Limbs are unbounded. Persons wearing them engage in every occupation and profession.

This cut is from a photograph of John J. Winn, Signal Quartermaster on

"U. S. S. ONEIDA,"

who lost his leg above the knee, and arm above the elbow, by the explosion of a shell while the steamer was engaged in the attack of Forts Jackson and St. Phillip, under the command of

ADMIRAL FARRAGUT,

April 24, 1862. The following letter tells what the old warrior knows about Artificial Legs and Arms:

MR. A. A. MARKS:

DEAR SIR.—I write you this simply to say that my experience with your Artificial Limbs, together with considerable experience with other kinds, induces me to prefer yours by all odds. The special point I desire to mention is the simplicity of construction in your leg, whereby I can take it apart, lubricate and adjust with my one (natural) hand, and put together again without any help. My good solid weight of 240 pounds gives the leg a good trial, and yet I feel a confidence in it that I had never had in any other kind.

Yours sincerely, JOHN J. WINN.

Twenty-nine highest awards.

Indorsed and purchased by the United States and several other governments.

Send for **Marks' Treatise on Artificial Limbs,** and become acquainted with particulars. The book contains 544 pages, illustrated by 800 cuts, and a thousand testimonials. Instructions are given how to take measurements and obtain artificial limbs without leaving home.

A. A. MARKS, 701 Broadway, New York.

Trophonine

a palatable and nutritious liquid food, contains the nutritive elements of beef, egg-albumen, and wheat gluten, so prepared as to be readily absorbed and aid almost immediately in the process of reconstruction. It furnishes the sick with the largest possible supply of nourishment and with the minimum tax on the digestive organs.

Protonuclein

by increasing the number of Leucocytes, destroys toxic germs, increases the inherent resistance to disease, quickens glandular activity, arouses the nutritive forces, gives tone to the system, and stimulates cell-life throughout the organism.

Peptenzyme

is the only perfect digestive. It digests every variety of food. In physiological activity it presents the active and mother ferments of the entire group of digestive organs. It aids digestion by furnishing an additional supply of protoplasmic material out of which active ferments are elaborated, and perfects the process by increasing cellular activity.

ARTIFICIAL LIMBS!

HARRY COLLCUTT, of Chicago.

Double Amputation.

Riding seven miles to his work, morning and evening, on his bicycle as easily as anyone with natural legs.

We are the sole manufacturers of **leather** and **aluminum** limbs, arms, feet and hands made with all the latest improvements. Authorized manufacturers for U. S. government. Every limb warranted.

Our Limb is made of especially prepared sole leather, reinforced with aluminum, has perfect knee, ankle and toe action.

A Few of the Advantages of Our Limbs: More durable, stronger and lighter than others; easy on wearer; no chafing of the stump; has patent adjustable socket; fits the stump at all times, should limb shrink or swell, has all latest improvements of all other makes besides our own, acts the same as a shoe on the foot, the longer worn the more comfortable it becomes. Our mode of taking cast and measurement saves patient expense of coming to factory to be fitted.

To Physicians: If you want your patients to have the best limb, made of the best and most expensive material, for the least money, investigate the "National." Special arrangements made with physicians to represent us.

Write for particulars.

Send for our new illustrated catalogue

WHAT OTHERS SAY:

After 37 years of practical experience with eight limbs of different manufactures your limb is the most comfortable of all. DR. H. C. BAKER, Malvern, Ark.

After wearing six different makes of limbs from all parts of the country I must say for comfort and ease yours beats them all. JERRY CARR, Cedar Rapids, Ia.

I have done my own housework ever since I got the limb. It does not tire me in the least, is simple and easy to operate. MRS. J. I. MILLER, Chicago.

I have worn three other makes of limbs, but the Aluminum and Sole Leather Limb is the lightest and most comfortable I ever wore. C. A. McLEAN Harwood, N. D.

National Artificial Limb Co.

52 Dearborn St., Chicago.

"It forms an artificial scab, and hermetically seals the wound."

IRISOL ODORLESS IODOFORM.

A surgical dressing powder of unexcelled merit for all operations and for old stubborn ulcers. In burns, when dusted on, it seals up the wound and permits of healing without further attention after the first dressing. Use the dry powder in Eczema, and one dram of **IRISOL** to the ounce of vaselin in all other skin diseases. It has **ABSOLUTELY NO ODOR.** Sample and literature free for the asking. MEDICAL BOOKS,

96 WASHINGTON ST., CHICAGO.

Tannalbin

Tannalbin is an albumin compound of tannin in a form insoluble in the stomach. It is preferable to calomel, opium and to the salts of bismuth, of lead and of silver because it induces no gastric disturbances. Tannalbin is of pronounced service in simple diarrhea, acute and chronic enteritis, dysentery and cholera infantum.

Tannoform

Reports from eminent dermatologists indicate that Tannoform occupies a valued position in the treatment of bed sores, in pruritus of the vagina, occurring in diabetics, in ozena and in chancroids. Tannoform also corrects excessive perspiration. It not only restrains profuse secretion, but overcomes offensive odor.

Ichthalbin

Superseding Ichthyol pure internally.

Ichthalbin is a chemical compound of ichthyol and albumin, representing 75 per cent of ichthyol. It is odorless and tasteless, and unaffected by the stomach. In the intestines the ichthyol is gradually liberated, nausea and eructation are thus avoided. Ichthalbin acts as an alterative, an antirheumatic, and an antistarrhal.

University Place, NEW YORK

Abbott's Effervescent Saline Laxative

Has a surprise in store for any doctor who will investigate its claims. It is at the same time an ideal refrigerant, anti-ferment, antacid, laxative or cathartic, according to dose and the conditions under which it is used. It never gripes.

The general usefulness of this preparation cannot be over-estimated. It should be in every home, taking the place of all the old-fashioned laxatives and purgatives so unpleasant to taste and harsh and uncertain in action. The physician who makes Abbott's Saline Laxative the basis of his treatment of disease, both acute and chronic, will find his practice materially benefited thereby.

OBSTINATE CASES, DOCTOR, WILL PROMPTLY YIELD TO

Pheno-Bromate.

"I have achieved wonderful results by its use in cases of amenorrhea and dysmenorrhea."—*Lyman Hall Wheeler, M. D., Harlem Hospital, New York City.*

TRY IT, AND YOU WILL BE PLEASED AND SURPRISED AT THE RESULTS.

PHENO-BROMATE is a perfected synthesis of the Phenol and Bromine derivatives, and has the combined effect of subduing pain, reducing temperature, strengthening the heart and inducing sleep. Depression never follows, and to establish this fact, a patient was given 560 grains in twenty-one hours with absolutely no bad effect of any kind.

Pheno-Bromate (Powder or Tablets) may be procured from druggists or will be mailed from this office on receipt of price, $1.00 per ounce.

☞ Samples and literature sent free on application.

THE PHENO-BROMATE CHEMICAL COMPANY,
Home Office, 38 Murray Street, NEW YORK.

DEAR DOCTOR:

In keeping your accounts, do you not have a desire to use the most condensed and Labor-Saving System? We have it in the

PHYSICIAN'S CALL BOOK and LEDGER COMBINED.....
All in a nutshell as it were.

No Posting or Transferring, no Indexing. One writing of Patient's or Family Name for Entire Year. Sufficiently small and compact for the pocket, yet spaces large enough to make all charges in figures; no auxiliary books required, can be commenced at any time. Amount due can be told any time at a glance.

Price, $1.50
including a year's subscription to the

THE CORPUSCLE,
93 Flournoy St., CHICAGO.

GOOD READING!

WE HAVE on hand a number of copies of back issues of the CLINIC. These copies are some of those held for back calls, binding, etc. They are in good condition. The reading they contain is as readable as ever. With a few exceptions the articles are as timely as when first published. Ordinarily back copies bring an increased price. In this case we offer any physician these back copies at the following bargains:

1897 CLINICS
One copy of each month of 1897, making a complete file for the year, postpaid half the regular subscription price. In removable binders, $1.00.

1896 CLINICS
One copy of each issue of 1896, except August and September, that is, ten different numbers of 1896 for 50c. In removable binders, $1.00.

1895 CLINICS
We are also short copies of two 1895 issues. One copy of each issue of 1895 save October and November for 5c. In removable binders, 75c.

1894 CLINICS
For 1894 we can furnish a complete file. One copy of each issue of 1894, 35c. In removable binder, 75c.

Now, we have only a limited number of these copies and we will deal them out to the first, not the highest bidder. Here is a chance for new members of the Clinic family to read up, investigate and retain a pretty complete record of the family history.

The Alkaloidal Clinic
CHICAGO, ILL.

OUR 1898 BICYCLES.

The only advertising we know how to do, is to give a better article than anyone else sells at the price. That is the kind of advertising on which we rely to sell bicycles for us. The merchant who decides to handle the 1898 "BUTLER" and "ADAMS" bicycles will find himself armed to meet all competition

The "BUTLER"; Handsomest, strongest, easiest running wheel of 1898.

Fac-Simile Butler Name Plate

The 1898 "Butler" is the finished result of skill and ripe experience, backed by capital adequate to command every means to improve quality or reduce cost. **Thoroughness** marks this wheel from tip to finish.

Judge the Butler by these leading features **Flush joints** throughout; **drop steel forgings** in every part; "Royal" arch fork crown lightest, most graceful, strongest; absolutely **dust-proof** bearings, having the new "screw in" dust caps; **direct** spokes, truss pattern front sprocket—very light, very strong, absolutely rigid when in place, yet detachable in an instant Baldwin detachable chain; improved combination crank and crank axle, two-piece, self-locking, simplest adjustment in use; high class equipment in every particular, **expensive** and **beautiful** finish

The "ADAMS": A guaranteed wheel with high grade equipment.

Our "Adams" bicycle is not the usual "jobbing wheel" but is **honestly high grade** in quality, workmanship and equipment. We could sell $4.00 to $5.00 by using an equipment which looks almost as well when new, but the rider and the merchant who sold such a wheel would soon know the differences.

Note these features Best quality **Shelby** seamless steel tubing **drop forgings** throughout—not a casting in the machine, best grade Indianapolis chain, **keyless, self locking** cranks highest quality hubs, cones and cups, Imurion easy running and lasting bearings Plymouth wood rims, first quality pedals, Sager **"Hygienic"** or **Brown** style saddle, most expensive tool bag **Morgan & Wright** tires; finest cork grips.

Fac-Simile Adams Name Plate

THE 1898 "BUTLER" BICYCLE - - $34.00.

Comparable in MAKE and in FINISH Only with the Machines Sold at $75 to $100.

SPECIFICATIONS Gentlemen's Model.

FRAME Built throughout from Shelby seamless steel tubing of the very best quality All joints are flush, thoroughly reinforced, steel drop forgings being used throughout.

The bottom tube is 1⅛-inch; head 1⅛-inch, top and seat post tubes 1⅛-inch. Rear forks made from ⅞ D shape tubing, ⅝-inch, gracefully tapering to ⅝-inch at rear hub. The standard height is 24 inches, although we can furnish the 22 or 26-inch when ordered Drop of crank hanger is 2½ inches, length of wheel base 42⅜ inches, width of tread 4¾, length of head 6¾ on 24-inch frame, other sizes in proportion

FRONT FORK The unequaled "Royal" arch fork crown, a steel forging of wonderful strength, hollowed out to lessen the weight without sacrificing strength or rigidity Fork sides of Shelby seamless steel tubing, ⅞-inch at crown, reinforced and beautifully tapered to front hub. "Royal" arch crown and fork ends richly nickeled on a heavy deposit of copper.

WHEELS—28-inch, Plymouth wood rims of best quality Excelsior double swaged spokes, nickeled and hardened brass nipples, which will not rust in rim. 28 spokes to front wheel and 32 to rear. All cones and cups cut from solid bar tool steel of the very finest quality. Bearings fitted with the new "screw in" dust caps, which cannot become loose, and which exclude every particle of dust and dirt, insuring always a bearing which is perfectly clean and therefore easy running The dust cap screws in and locks itself; can easily be removed by the fingers.

Hubs are barrel pattern, made from best quality bar steel; a new design, making the spokes reach out direct, doing away with all bend in the head of spoke We call particular attention to the new "Butler" direct spoke hub as the most perfect device used in the way of a direct spoke hub

The oil cups are directly over the bearings, thereby making positive the proper oiling of the machine.

BEARINGS All cones and cups are turned direct from bar tool steel, ground and polished by hand, perfectly tempered. The bar steel is made especially for us and makes the longest wearing bearings on the market

CHAIN Baldwin detachable, hardened block centers each chain thoroughly tested before put up a machine

TIRES Morgan & Wright, either Quick Repair or Single Tube. Unless single tube tires are specified in order we will always ship Morgan & Wright Quick Repair double tube tires

SPROCKETS Made from the very finest steel drop forgings, accurately milled. The front sprocket is of a new design, of the truss pattern, extremely light yet possessing immense strength It can be detached almost instantly, yet is absolutely rigid in its place unless taken off by the rider It is without question the strongest, lightest sprocket yet designed

The rear sprocket is made either with 8 or 9 teeth It is also made from a forging, beautifully machined and tempered. Front sprocket made with 20, 22 and 25 teeth.

HANDLE BAR Steel adjustable unless otherwise specified We can furnish stationary drop, upturned or ram's horn, or the Schluneer pattern if desired. Up-turned bar fitted with plunger brake, $1.00 extra

PEDALS High grade Monogram, rat trap or rubber. The usual equipment is rat trap pattern. If rubber pedals are wanted please specify

CRANK AND CRANK AXLE The greatest improvements we have yet seen Our new combination crank and crank axle (patent applied for) combines simplicity and strength to a remarkable degree. It is made in two pieces; the left crank and crank axle are steel drop forgings, one-piece, the right crank is also a steel drop forging of 8-arm spider pattern, screwing on to end of crank shaft and locking itself securely by its 3 arms into the expansion fittings which are also steel forgings, these fittings being securely fastened to the sprocket by the action of the crank screwing on to crank shaft. The locknut on left side of crank is tightened by screwing it up, thereby drawing the expansion fittings to their proper places, making it impossible for either of the cranks to work loose

The crank hanger is a large barrel pattern steel forging, perfectly machined and polished. The cups screw

into the crank hanger making the easiest as well as the simplest crank shaft adjustment. When the two-piece crank and crank axle are in place they have the appearance of being made in one piece A novice can take apart and put together the crank and crank shaft as well as the crank shaft bearings on the "Butler" bicycle in a very few moments and so simple is the construction of this vital part that it would be almost impossible to make an error

The cranks have 7-inch throw, which makes the machine a great hill climber and is of great assistance in making a high geared machine run easily.

OUR GUARANTEE.

We guarantee the "ADAMS" and "BUTLER" to be free for the year 1898, and will replace all defective parts provided such parts are returned to us All claims must be made and parts returned through the merchant to whom we sold the wheel Defective tires must be returned, not to us, but direct to makers, Morgan & Wright, Chicago, who guarantee their own goods. Charges on all parts returned to us positively **must be prepaid.**

SADDLES We furnish regularly the new Sager Hygienic, 1898 pattern. When specially ordered we furnish the Brown pattern B & W

WEIGHT—Complete (not counting tool bag) 28 to 34 lbs.

FINISH—Our standard finish will be the splendid "Belgian Blue" so popular last year. On special orders we can furnish black or maroon without delay, any other color subject to 10 days' delay. We call particular attention to the superior finish of the "Butler" bicycle. Each machine is given three coats of enamel, each coat being baked and polished. Beautifully striped in gold and handsomely decorated All the usual bright parts are highly polished and nickeled over copper

NOTE—We can also furnish any other color than the above, subject to 10 days' delay, but such specially finished wheels can be shipped *only from Chicago*, where the factory is located.

GEAR—Regular gear will be 74, which we believe the best for all around work. When specially ordered we can furnish from 68 to 87.

SPECIFICATIONS Ladies' Model.

The new lines on the ladies' model are very beautiful indeed. The same painstaking care taken with men's model has been used in the drop frame wheel The frame is as graceful, strong and rigid, with a generous drop to the crank hanger as in the diamond frame model

FRAME The standard height will be 24 in., although we can when especially ordered furnish 22 or 26-inch. The latter size however, is only used by unusually tall riders.

GUARDS—Of very best quality Plymouth pattern, both for chain and over the wheels Those guards are attached to the frame entirely by clamps and are very easily detached. Very nicely laced with the best quality silk lacing.

In all other respects the construction and equipment of this machine is the same as gentlemen's model. We believe it will be the handsomest bicycle of 1898 for the women riders.

A $20 *DRY HOT AIR STERILIZER* FREE

TO EVERY PHYSICIAN

THE BETZ DRY HOT AIR ARM-AND-LEG BATH is the only apparatus in the world to-day that makes it possible for physicians to successfully treat Arms, Legs, Hips, Shoulders, Kidneys and Abdomen, or any part of the body, at a temperature of 250 degrees above boiling point, 462° F.

The present methods are unsatisfactory for treating Acute, Sub-acute or Chronic, Articular, Muscular, or Gonorrhœal Rheumatism; Arthritis, Synovitis, Gout, Sprains, Periostitis, Ankylosis, Infantile Paralysis, etc. With this apparatus the parts treated become hyperemic through dilitation of the capillaries causing rapid absorption of all effusions and deposits, while pain and inflammation are diminished at once. We have yet to learn of a single failure.

YOU CAN SEND THE APPARATUS BACK IN THIRTY DAYS AND GET YOUR MONEY IF NOT SATISFIED.

SHOWING BATH IN USE.

We are the inventors and makers, pay royalties to one, and on this account can sell you six baths in one, made of steel, oxidized, with all attachments, thermometer, heater, etc., for the paltry sum of $20.00.

If, when ordering, you will mention this journal, we will give you the Hot Air Sterilizing Attachments free. Every physician should have a Hot Air Sterilizer for sterilizing instruments, dressings, etc., and one of this size would cost $20.00 alone.

We also make the above bath of iron and sell it with all attachments, but without the Sterilizer, for $12.00.

We make all kinds of baths. Over 60,000 sold to physicians.

Price, $1.20 each

A DISTINCT REMEDY.

TYREE'S ANTISEPTIC POWDER is a distinct powder for a distinct purpose. It is a distinct specific for Leucorrhœa and Gonorrhœa. It has absolutely no toxic effects. It stimulates the secretions of the healthy glands, and its action is altogether upon the peculiar pathogenic germs that cause the troublesome discharges of the genito-urinary organs of man and woman.

It is the only antiseptic which is safe and beneficial in all cases, and which does not stain.

It is the only antiseptic sold under the distinct agreement that it costs nothing if it fails.

It is pleasant to use, easy to carry and inexpensive to buy. A half pound box is sent prepaid for 75 cents.

A teaspoonful of powder in a pint of water, injected three or four times a day, always gives quick relief. It acts at once.

THE FORMULA—Borate of Sodium, Alumen, Carbolic Acid, Glycerine, and the crystallized principles of Thyme, Eucalyptus, Gaultheria and Mentha, the therapeutic value of each being intensified by heavy trituration.

ONE ENDORSEMENT TAKEN FROM MANY—Dr. S. Hemingway, Gynecologist Almshouse and Workhouse, Blackwell's Island Hospital, N. Y., says: "I have used Tyree's Antiseptic Powder with gratifying results. I believe it to be an excellent preparation and purely antiseptic."

FREE TRIAL—A trial package will be sent free to any physician who wishes to test it.

SHAPE, SIZE AND MATERIAL

are the important features. In all of these respects our Uterine Stem Pessaries are now unquestionably far superior to all others, considered by the profession as **perfectly** adapted for purposes designed. We have made recent improvements so that they are now of proper length and can readily be passed beyond the internal os, thus conserving their remaining *in situ*. As they are anatomically correct in shape and made of very thin **alumina simplex** (feather-weight), all possibility of irritation is entirely precluded. Invaluable in Leucorrhœa, Dysmenorrhœa, Catarrhal Affections, etc.

In connection with our Insulated Electrical Stem, these stems may be attached to any battery, thus a remedial measure of distinct value in the gynecological armamentarium.

Price, regular size, 50c. Special sizes to order, 75c. and $1.00. Complete set of three stems and introducer, $3.

Do You Treat Hernia?

IF NOT, WHY NOT?

The PERFECTION RUPTURE CURE METHOD is just what the name implies. It is PERFECT in every detail.

Many years of practical experience in the treatment of Hernia have enabled me to perfect a system which is ALWAYS SUCCESSFUL. That which has cost me years of study, practice and research and a considerable outlay of money you may have at a nominal cost.

This specialty affords greater returns with less work than any other, and, unless you have investigated, you will be surprised to know how many cases are within a stone's throw of you.

My clinics are large; and by procuring a course ticket, you will have full privilege of attending any and all clinics, which will afford you ample opportunity to acquire a full and complete knowledge of my method for the treatment of all forms of hernia, a knowledge absolutely necessary for the successful practice of this paying specialty.

FRONT AND BACK VIEW.

American Silver Truss

New in Principle and Design. A Perfect Success.

Every Physician has a number of cases of hernia yearly that are difficult to retain and give the patient comfort with the old style trusses. The American Silver Truss, new in principle and design is unequalled in efficiency and comfort and is easier fitted than other trusses. Requires no heating or tools to fit it. Does not constrict the the hips or thighs.

Physicians of the Highest Standing Recommend them.

The fact that these Trusses are constantly being ordered from us by the Surgeon General of the United States Army indicates that he finds much merit in them.

Pamphlet and Price List upon Application. Mention this Paper.

American Silver Truss Co., Yonkers, N. Y.

ACNEINE

fills a long felt want in the medical profession. It is a remedy unequalled in the treatment of PIMPLES and other inflammatory diseases of the face. Advertised in in medical prints only. Sample on application. Acne Tablets are prepared especially to accompany Acneine as an internal treatment and will be found a valuable adjunct.

BACK NUMBERS.

Carron oil, iodoform and picric acid are back numbers in the treatment of burns. Carron Oil possesses no antiseptic qualities whatever; while iodoform, owing to its strong toxic effects and odor, is very objectionable to the patient and in some cases dangerous to use.

In regard to treating burns with picric acid, its disadvantages are staining of the hands and bed clothes, and its utter uselessness in allaying the inflammation or assisting in granulation. Then again Walther in the *Gazette Hebdom. de Medicine et de Chirurgie* reports a case of two children he treated for burns with compresses of picric acid in which there was much pain, severe smarting and vomiting. A second application was made with same result, and this mode of dressing had to be discontinued.

In Unguentine we have a thoroughly antiseptic, healing and restorative dressing, non-toxic, inodorous and clean. It readily subdues inflammation, and assists in granulation. It was used in the hospital barracks at Key West, Florida, where the wounded soldiers of the Maine were sent for treatment from Havana.

HAGEE'S ELEGANT CORDIAL.

In view of the fact that Cod-liver Oil in its crude, refined or emulsified form induces atony of the digestive organs, and hypertrophy of the gastric and intestinal mucous membranes, it is evident that the easily digestible and assimilable Hagee's Cordial, containing as it does the true active principles of the oil, is the most eligible succedaneum for this oil.

ZOMAKYNE FOR PNEUMONIA.

I have used Zomakyne for two and one-half years, with splendid success in typhoid-pneumonia, la grippe, diseases of women, and in all cases where I need a pain destroyer—and it has never disappointed me yet. I can recommend it to the profession as one of the best all round remedies I ever used in relieving pain, reducing temperature, and wherever indicatad. It is the remedy for dysmenorrhea.

DR. J. W. WALDRON.

Grundy, Va.

Regular Bathing

Every physician knows the necessity for regular, systematic bathing, as the circumstances of every individual case may require.

A great many homes, even with bath rooms, lack proper bathing facilities, such as hot water, etc. Our **FOLDING BATH TUB** meets this requirement. It is an ornament for any room and obviates the necessity of a bath room, in fact it is a perfectly equipped bath in all respects, with plenty of hot water.

"After an extended trial I consider your folding bath tub one of the most desirable articles of the kind. It combines the hygienic principles in the most perfect manner that has ever been attempted, and has existed for years unless the use is confined to countries that have been without a water system, namely, a water tank. The writer considers the luxury of the bath, and from his observation hygiene conceded by. He congratulates you on meeting the requirements of a large class of people who have heretofore been wholly neglected."

DR. A. J. WOODCOCK, Bryan, Ill.

Our Catalogue of 20 sizes of Folding Bath Tubs, giving prices etc., sent to any physician for the asking. We can arrange to give a member of the medical profession a special discount.

NATURE'S OWN CURE

For Rheumatism, Kidney, Blood, Skin and Nervous Diseases

Doctor:

The Magno-Mud Cure and Lithia Water Baths are yours to prescribe like any other therapeutic agent. Send your patients to us. We will take the best care of them, and return them to you—*still your patrons.*

Exceptional Results:

It is a strong statement, yet we believe that every one of the thousands treated feels that the investment of time and money has been well made. Many are cured that were considered incurable. Ordinary cases get quick and permanent relief. All medical practitioners who have visited us themselves, or sent us their patients, are our most enthusiastic endorsers.

Investigate for Yourself, Doctor.

Come and see us! THE MAGNO-MUD CURE is only 120 miles from Chicago and 211 from St. Louis, near Attica, Ind., at the junction of the C. & E. I. and Wabash Railroads. Doctor, submit diagnosis and we will co-operate with you, guarding your professional interests in a way not found in any similar institution in this country. Shall we mail you a souvenir booklet illustrating the details of the treatment and a few for your patients? Write us and ask any questions you wish.

H. L. KRAMER, General Manager,
INDIANA MINERAL SPRINGS, INDIANA.

WHY CUT?

A Fad!

Many a life has been sacrificed and much needless suffering inflicted by those who rely upon the knife as the chief remedy for affections of the female genital tract, when a more rational treatment could have been successfully pursued by using

MICAJAH'S
Medicated Uterine Wafers

a safe, efficient and positive remedy in **DISEASES OF THE UTERUS**, such as **Endometritis, Uterine Engorgement** and **Displacements**, and in **Vaginitis, Leucorrhœa, Cystitis**, etc.

Prof. G. HOWARD THOMPSON, of St. Louis, Mo. says he has found **Micajah's Medicated Uterine Wafers** to meet every indication in cases of uterine engorgement, salpingitis, etc., the uterus contracting, until normal dimensions are reached. After two or three applications of the wafers, exfoliation of the vaginal mucous membrane takes place in vaginitis and leucorrhœa, and a complete cure results. (*St. Louis Medical and Surgical Journal*, April, 1898).

Micajah's Medicated Uterine Wafers ARE PROMPT POSITIVE PERMANENT IN ACTION.

A copy of "Hints on the Treatment of Diseases of Women" and Samples of **Micajah's Medicated Uterine Wafers** will be sent free by mail on request to

MICAJAH & CO., WARREN, PA.

DESIGNED BY JOURNAL ADV. AG'CY, N.Y.

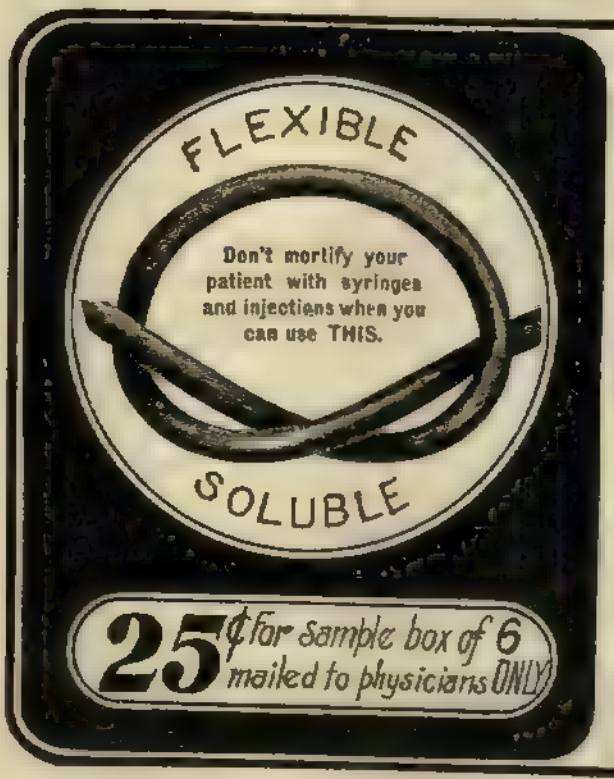
Maltine

MALTINE is not merely "malt," nor is it a mere "extract of malt," nor an "essence of malt."

MALTINE is the most highly concentrated extraction of all the nutritive and digestive properties of Wheat, Oats and Malted Barley.

It has stood alone and unrivaled throughout the world in its therapeutic field for more than twenty years, despite the most strenuous efforts of the ablest pharmaceutical manufacturers to produce a preparation approaching in its medicinal value, elegance, palatability and stability.

"Malt" is **not** "MALTINE."
"Extract of Malt" is **not** "MALTINE."
"Essence of Malt" is **not** "MALTINE."
"**MALTINE**" must be designated to get "MALTINE."



FLEXIBLE

The EMPIRE ELASTIC BANDAGE

Specially adapted for

VARICOSE VEINS

We invite the attention of the Medical and Surgical Profession to the various merits combined in our bandages.

1st. Its Porosity. The greatest in the "Empire." It never causes itching, rash or ulceration under the bandage.

2d. Its Elasticity, which will enable the surgeon or nurse to put it on at any required tension, and which will follow a swelling up or down, as the case may be, a feature unknown to any other bandage

3d. Its Absorbent Properties.—Greatest in the "Empire."

4th. Its easy application to any part of the body, not being necessary to fold over, as with other bandages, as it follows itself with equal uniformity around any part of the abdomen.

5th. Its Self-Holding Qualities.—No bother with pins, needles and thread, or string, so tiresome to surgeons, as simply tucking the end under the last fold insures its permanent stay, until its removal for purpose of cleanliness.

6th. The only bandage that is **Superior to the Elastic Stocking** for varicose veins

Send $1.00 for 3-in. by 5-yd. bandage on approval.

The EMPIRE ABDOMINAL SUPPORTER

Is Superior to all others for the following reasons:

1st. It adapts itself to every movement of the body, giving strong and even support.

2d It produces warmth without irritation or sweating, as it is perfectly ventilated.

3d In pregnancy, corpulency, tumors, or other cases of enlargement of abdomen, it supports weight of body from the backbone, relieving the sinews of their overwork.

4th Its easy appliance: lace and draw on over the head or feet.)

5th. It is cheap, durable. It can be washed when soiled, proper care being taken to cleanse in lukewarm water, and dry in shade.

In ordering give largest measure of the abdomen.

Prices:

8	inch wide, -	$2 50

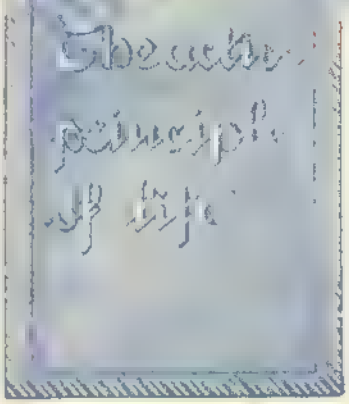
The Original — Standard

Nuclein Solution



What it is

What it will do

Nuclein Solution (Aulde) is permanent, non-toxic, non-irritant, thoroughly aseptic, and is not affected by climatic changes. It may be used either by the mouth or hypodermically.

General Indications:

A disorganized state of the blood—all forms of wasting disease. It is our greatest builder.

Chemically Nuclein is a phosphorized proteid, the chief of the defensive proteids of the organism; it is also found in plant cells and upon its presence or absence depends the vitality and growth of both animal and plant life. The therapeutic virtues of Nuclein are due to its influence upon Leucocytosis (the) Nuclein increases the number of leucocytes in the blood stream, at the same time augmenting their functional activity thus stimulating cellular action to resist the morbid changes produced by bacteria and their products. The great value of this product has been repeatedly demonstrated in a long list of formidable diseases not alone as a curative agent, but as a preventive as well.

Special Indications:

Diphtheria, Tonsillitis (Quinsy), Laryngitis, Typhoid Fever, Cholera Infantum, Diarrhea, Dysentery, Pneumonia, Broncho-Pneumonia, Tuberculosis, Influenza, Bronchitis, Pleurisy, Anemia, Malaria and Chlorosis, and all similar conditions when the wavering body needs support. It is invaluable after surgical operations and loss of blood from any cause.

NUCLEIN, AULDE, is marketed in solution, tablets and granules, and may be obtained direct or through the regular channels of trade. Samples, (unless you specify, tablets will be sent). Price list and valuable literature on request.

NUCLEIN MEDICATION is one of the decided therapeutic triumphs of the times and marks the greatest achievement in modern therapy.

Tannopine, a specific in diarrhoeal affections.

Tannopine (hexamethylen-tetramine tannin) is always prompt and reliable in action, because it passes unchanged through the stomach and is gradually decomposed in the intestine, thus exerting its astringent effect at the **site of disease,** whether in the upper or lower intestinal canal. Especial indications: Gastro-enteritis, cholera infantum typhoid, and intestinal tuberculosis.

SCIENTIFIC FOODS, TONICS AND RESTORATIVES.

SOMATOSE,	FERRO-SOMATOSE,	LACTO-SOMATOSE,
a scientific food in all conditions of lowered vitality producing a rapid gain in flesh and strength without taxing the digestive organs	a ferruginous nutrient in all anæmic states palatable, readily assimilated, does not affect the teeth nor produce constipation	pre-eminently a food for gastro-intestinal diseases agreeable, nutritious and exerting a mild astringent action in diarrhoeal affections

Protargol an important advance in gonorrhoea therapeutics

Protargol is regarded by Professor Neisser as "the best, safest and most rapid remedy hitherto introduced in the treatment of gonorrhœa." It is also highly recommended in affections of the eye, infected wounds, and as a substitute for nitrate of silver in general.

FOR YOUR OFFICE GET

The King of All—Our Panel Cabinet

PRICE, $12.00. OTHERS ASK $30.00.

MADE of hard wood, well seasoned and kiln dried. Every piece soaked in oil to overcome the difficulty that has always heretofore existed on account of the wood absorbing vapor and dampness. Every cabinet is polished and finished equal to parlor or office furniture. This cabinet has never been offered or sold before in this country for less than $30.00, and is today quoted by many at $45.00 each. It has all the latest improvements, such as doors, ventilators, bevel top, etc. It can be folded up to four inches thick without taking out a screw. It stands 42 inches high and 24½x37 inches on the floor. It is the only bath made that will allow the patient to operate the ventilator from the inside. This gives any desired temperature. We send either an alcohol or gas burner with each cabinet, and ask but $12.00 for the complete outfit. It is actually giving them away and cannot be considered a sale. We also wire and put on four extra nickel-plated binding posts for $1 50 extra, so that any battery cords and electrodes can be used. This outfit weighs sixty pounds and should go by freight. It is today the greatest bargain and the best cabinet ever offered in this country. We are the only manufacturers in the world who make all kinds. Send for catalogue.

$5 VAPOR BATHS $2 EACH. **FRANK S. BETZ & CO., CHICAGO, ILL.**

WRITE FOR LITERATURE.

JNO. B. DANIEL, ATLANTA, GA.

For Sale by Leading Wholesale Drug Firms of the United States.

All the medicinal properties of the Iodine retained. Rubbing causes the dark color to disappear.

COLEMAN'S

Stainless Iodine

OINTMENT

Ung. Iodi Stainless (Coleman)

Does not COLOR or INJURE the skin like the tincture and other preparations.

Can be used in the Uterus, Vagina, Rectum and on all mucous surfaces without causing discomfort to the patient. The base is LANOLINE and other emollient oils.

Physicians say it is the most perfect preparation of Iodine ever introduced to the medical profession.

Put up in ½ lb jars for physicians dispensing 50c. size (2 oz.) sent to any physician, prepaid, for 25c in stamps

York Chemical Co.

IODIDE OF LIME

(PROPERLY IODIZED LIME)

SUFFICIENT evidence has been presented in the columns of the CLINIC to prove the efficacy of this product in **Membranous Croup** and allied affections. Excellent effects have also been produced in **Fibroid Tumors** and **Incipient Phthisis.**

The product which we offer is not the Iodide of Calcium of commerce. On the contrary, it is the chemical compound discovered by Dr. Jas. R. Nichols, of Boston, in 1855, which is manufactured by a special process, and, unlike the former, is a combination with a large molecular excess of iodine, easily broken up when in contact with acids, and of undoubted therapeutic value.

The lime is only a carrying agent, it is the **IODINE** which **DOES THE WORK** right where it is needed. Far superior to hydriodic acid, all elixirs of iodides, or any other form of iodine.

The "Cornell"

REVOLVING DISPLAY RACK

For Handkerchiefs, Hosiery, etc.

Pays for itself in one week through increased sales of goods

This new display and goods-selling device differs from all others in many respects. One of its special features is that the ends of each of the two wheels are formed of spirals, starting at the bottom, the coils of which handkerchiefs or other articles can be

[illegible] lower one measuring [illegible] diameter, the upper one 15 inches. A nickel plated front base to top with heavy half nickel-plated wire, on standard design. The base is sufficiently heavy so rack will [illegible] when used for window display. Screw holes in base so can be screwed down when used on the counter. Though so big and handsome in size, knocks down into exceedingly small space, fitting into a box 6½x12¾, 3¾ deep. Price complete $2.25

Free with $21.00 Handkerchief Assortment.

We know that what sells goods for our customers is good goods for us. Therefore we propose to give this splendid display rack

Goods will be billed at regular catalogue prices and total will amount to just about $21.00. No charge for rack in any form. Only one rack free to a customer under any circumstances. Price complete (including Cornell rack) **$21.00**

Williams' Shaving Soaps were adopted as the **"Standard for quality"** by the U. S. Naval Department nearly fifty years ago. They are used exclusively at Annapolis, and on all U. S. Naval Vessels, at West Point and the principal Army Posts. Their rich, creamy lather has made Williams' Shaving Soaps **Standard** of the **World.**

Williams' Shaving Soaps are sold everywhere, but sent by mail if your dealer does not supply you.

Williams' Shaving Stick, 25 cents. **Luxury Shaving Tablet, 25 cents.**

. . . THE . . .

Willsie Cameras

THE CAMERAS OF THE FUTURE

Involve a new principle which does away with roll film, film holders. changing sleeve or bag.

The Willsie 3½ Camera **$10**

Loads with 24 flat films 4 x 4, or
Six glass plates, 3½ x 3½, in holders.
Achromatic lens with three stops.
A view finder and tripod plate.
Time and snap shot shutter.
Accurately scaled focusing device.
An Exposure Meter.
Covered with seal grain leather.

The Willsie 4 x 5 Camera **$15**

Loads with 48 mounted flat films 4½ x 5½, or
Six glass plates, 4 x 5, in holders.
Achromatic lens with three stops.
Two view finders and two tripod plates.
Time and snap shot shutter.
Accurately scaled focusing device.
An Exposure Meter.
Covered with seal grain leather.

THE MOUNTED FLAT FILMS

are easy to put into the camera, easy to change, and do not require holders. Any film may be removed for development without disturbing the others. The exposed films can always be separated from the unexposed. The subject, time of exposure, etc., can always be learned from the memoranda on each film; and the number of exposed and unexposed films in the camera can always be told at a glance.

THE LENSES

are the best meniscus achromatic that can be obtained, and give superior definition combined with rapidity, flatness of field, and depth of focus. Their length of focus (five inches in the 3½ size and six and one-half inches in the 4 x 5 size) prevents the distortion which results from the use of shorter focus lenses.
